

Industrial Flash Module Series

Ordering Information

IFD-180A[T]-[C]: 1.8" IDE Industrial Flash Disk, RoHS

IFD-250A[T]-[C]: 2.5" IDE Industrial Flash Disk, RoHS

[T]: Support operation temperature code:

[I]: Industrial level (-10°C~70°C) ;

[W]: Wide temperature level (-40°C~85°C)

[C]: Capacity code: 32MB, 64MB, 128MB...32GB

IFD (Industrial Flash Disk) Product Line

Capacity	32 MB~32 GB	
Form factor	0°C ~ 70°C	IFD-180A-xxxx: 1.8" disk form factor IFD-250A-xxxx: 2.5" disk form factor
	-40°C ~ 85°C	IFD-180W-xxxx/: 1.8" disk form factor IFD-250W-xxxx: 2.5" disk form factor
Connector	44-pin, 2.54 mm pitch IDE	
Dimensions (WxHxD) mm	IFD-180A/W-xxxx: 78 x 54.3 x 7.6 IFD-250A/W-xxxx: 100.2 x 69.8 x 9.2	
Housing	IFD-180A: ABS Mechanical Cover IFD-250A: Al-Mg Alloy	
Operating environment	0°C ~ 70°C for industrial version -40°C ~ 85°C for Wide-Temp. version	
Orientation endurance	Shock: 1000 G, Vibration: 15 G	
Reliability	IDE compatible Support auto stand-by and sleep mode Built-in ECC (Error Correction Code) function Built-in embedded flash file system Dynamic wear-leveling algorithms to substantially increase longevity of flash media
